

Frontier Airlines Soars into New Horizons: Celebrating the Inaugural Flight.

In July 2024, the Airports Authority of Trinidad and (“the Authority”) welcomed Frontier Airlines to Trinidad and Tobago. This new Puerto Rico to Port of Spain route, is very important to the Authority as we continue in our efforts toward establishing Piarco International Airport as the major air transport hub of the Southern Caribbean. Already Port of Spain serves as a major gateway to Latin America and the Caribbean, while Luis Muñoz Marín International Airport in Puerto Rico, is a key hub and gateway into the United States.

FRONTIER
AIRLINES

This new linkage creates greater opportunities for connectivity and accessibility to the US and presents greater affordability options for traveling customers. It aligns perfectly with our mission to enhance the travel experience for our passengers by providing them with more choices, greater convenience, and seamless connections. We are committed to ensuring that every flight into and out of Piarco International Airport is supported by world-class facilities and exceptional service standards.
