MEDIA RELEASE

FOR IMMEDIATE RELEASE

AIRPORTS AUTHORITY OF TRINIDAD AND TOBAGO WINS TOP HONOUR AT AMCHAM T&T'S NATIONAL HSE AWARDS

The Airports Authority of Trinidad and Tobago ("the Authority") is proud to announce that it has captured first place at the 15th Annual National Excellence in Health, Safety and Environment (HSE) Awards, hosted by the American Chamber of Commerce of Trinidad and Tobago (AMCHAM T&T).

This prestigious award seeks to recognize and inspire entities that are committed to forging the path toward HSE excellence through the implementation of impactful projects. The Authority earned this distinction in the Services – Large Company Category for its Outstanding OSH and Environment Project — the EU-funded 0.5 MW Solar Park at the Piarco International Airport. Commissioned in February 2024, the Solar Park represents the first commercial-scale, ground-mounted solar park in Trinidad and Tobago. The initiative produces approximately 1.2 million kilowatt-hours (kWh) of clean energy annually and has already mitigated an estimated 660 metric tonnes of carbon dioxide (CO₂) emissions.

Entering the HSE Awards provided the Authority with the opportunity to showcase its commitment to sustainable development and safety leadership, while benchmarking against industry standards and reinforcing a culture of accountability and continuous improvement.

This award not only highlights the Authority's dedication to environmental sustainability and operational excellence, but also underscores its contribution to Trinidad and Tobago's Nationally Determined Contributions (NDCs) and the United Nations Sustainable Development Goals (SDGs).

The Airports Authority of Trinidad and Tobago remains steadfast in advancing initiatives that foster a safer, greener, and more sustainable future for the aviation industry and the nation at large.

A proud win for the Airports Authority of Trinidad and Tobago

Winner – Outstanding OSH & Environment Project
